PROFESSIONAL EXPERIENCE

Junior Software Developer | Jul 2025 - Dec 2025, Jun 2026 - Today

Dekbera Communications SL

- Built full-stack internal tools using **React**, **Spring Boot**, and **Node.js**, improving internal workflows.
- Developed and tested backend services with **JUnit** and **Mockito** to ensure reliability and code quality.
- Built and maintained **WordPress** websites, improving SEO and site performance.
- Collaborated across **frontend and backend teams** from requirements to deployment.
- Created **technical documentation** in English and Spanish for multiple projects.

Software Developer Intern | Feb 2025 - Mar 2025, Jan 2026 - Mar 2026

Dekbera Communications SL

- Developed a CRM system using **React Native**, **Spring Boot with Kotlin**, and **MongoDB** for client-facing operations.
- Designed the database migration strategy and technical architecture diagrams for a full system modernization.
- Dockerized the application and configured the deployment environment to prepare it for production.

OTHER PROJECTS

ERP for Car Rental Company

Java 21 · JavaFX · Spring Boot · MySQL · Docker

- Developed hexagonal architecture covering bookings, billing, CRM, and fleet management for rental car operations
- Containerized backend services with Docker.

Streaming Local News Media Platform

React Native · Expo · Spring Boot · MySQL · Cloudinary

- Led end-to-end development of a cross-platform streaming app delivering local news to mobile audiences
- Built secure authentication, media handling, and a polished cross-platform mobile frontend
